

# QUARTER FENDERS

## **AeroSlipper™** Aerodynamic Design

AeroSlipper Quarter Fenders are designed with a short support tube for superior aerodynamic performance. The reinforced support tube minimizes drag and also reduces the amount of dirt and debris that collect against the crossbar.

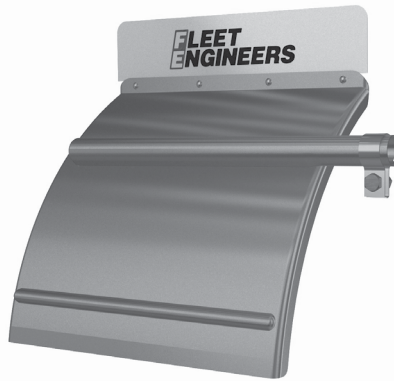

▲ **ASP-25**  
Available with or without top flaps.

**MODELS INCLUDE**  
ASP-25 – Poly  
ASC-24 – Classic Metal

## **XT-Series** Cross-Tube Mounts

Fleet Engineers **Cross-Tube Mount Series** are full length fender mount solutions. Configuration options include both standard and low mount options. Part Managers are most impressed with the various materials and finish options.

▲ **XTC-24**  
Available with or without top flaps. Multiple metal options. Low Mount style available.

**MODELS INCLUDE**  
XTP-24 – Poly  
XTPL-24 – Low Mount Poly  
XTC-21 / XTC-24 – Classic Metal  
XTCL-24 – Low Mount Classic Metal

## **PM-Series** Paddle Triangle Mounts

Paddle Mount Quarter Fenders are desired for their attractive appearance and optimized functionality. Fleet Engineers **Paddle Mounts** have a full length cosmetically designed triangle cross bar with hidden mounting bolts to create a clean uncluttered appearance.

▲ **PMCL-25**  
Available with or without top flaps. Multiple metal options.

**MODELS INCLUDE**  
PMC-24 – Classic Metal  
PMCL-24 – Low Mount Classic Metal  
PMC-25 – Classic Metal

QUARTER FENDERS

**Standard**  
Side Mount Socket

**Premium**  
Post Mount Socket

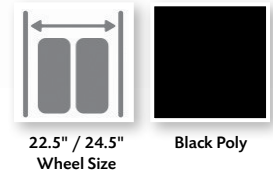

## **QuickPicks** Mounting Hardware

Every Fleet Engineers Quarter Fender is available with a complete set of mounting hardware, we call them "Quick Picks." Simply select Standard Side Mount Socket or Premium Post Mount Socket and get complete kits with every washer, nut, bolt and bar delivered to fit your fender, your vehicle.

# AeroSlipper™ Poly ASP-25 Series Quarter Fenders

## FEATURES

- Designed with a short support tube for superior aerodynamic performance
- Lighter weight than classic metal quarter fenders
- One piece injection molded design, includes v-rib channels on the underside to move water spray away from the tire and out of the path of drivers on the road
- Textured fender surface reduces scratches and dings
- Unaffected by heat and cold – range of -40°F to 130°F (-40°C to 55°C)
- 25 x 24" fender size

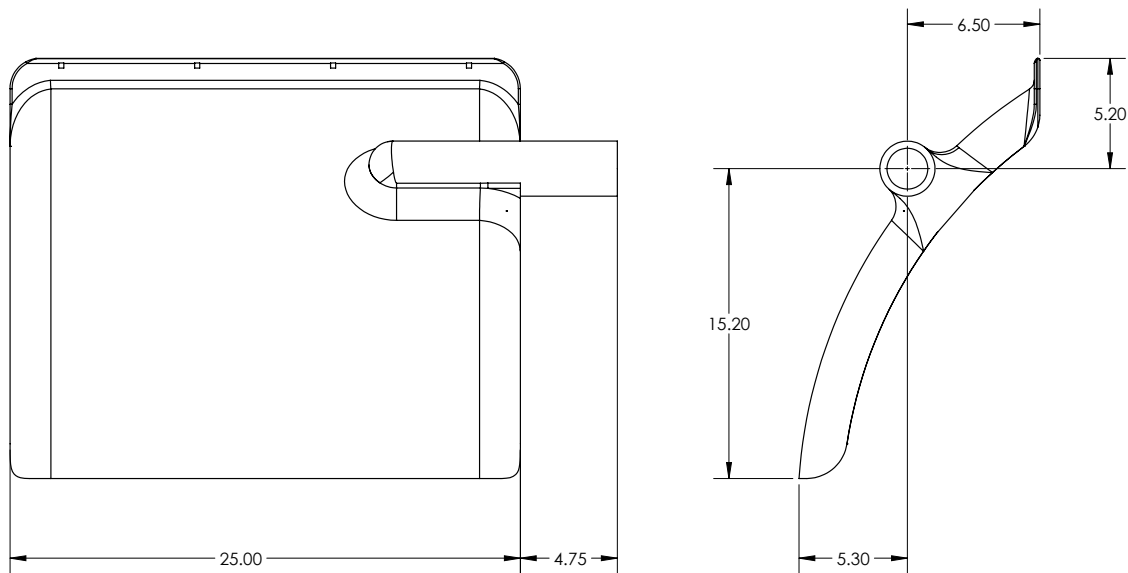

## ORDER DETAILS

- Each fender packaged set includes one right and one left fender assembly with hanger clamps and hardware
- Available with or without Fleet Engineers top flaps and hardware. Plain white and black or OEM top flaps are sold separately
- Pre-assembled for speedy installation
- Custom colors available upon request. Minimum order quantity and one time set-up fee may be required.

# POLY FENDERS

FULL ROUND, SINGLE RADIUS OR DOUBLE RADIUS

### INJECTION MOLDED PLASTIC POLYMERS

All Spray Master fenders are made from injection molded plastic polymers which optimize weight-to-strength ratios and exhibit extraordinary durability. Injection molding allows for variable geometries throughout the design of the fender and allows for the addition of unique product features and the optimization of material thickness in high stress areas.

### LIGHTWEIGHT, RUST-FREE CONSTRUCTION

The lightweight, rust-free material increases cargo capacity, improving load-to-run efficiency.

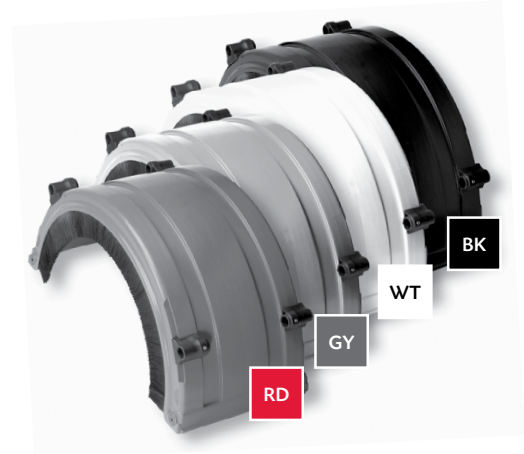

### STRUCTURAL RIBS AND SIDE VALANCES

Spray Master fenders are designed to include side valances and molded ribs on the underside of the fender to provide superior spray suppression, achievable through the use of our injection molding process.

### MOUNTING OPTIONS

The Spray Master brand of fenders is available in two mounting variations

- Stationary Mount Supports
- SlideTrax Mount Supports

### WIDE SPECTRUM OF COLORS AVAILABLE

Four standard colors available (shown above). Additional custom colors are available with minimum purchase. Contact your Fleet Engineers representative for details.

POLY FENDERS

## Stationary Mount Supports

The Stationary Mount Support is a two-piece, injection-molded nylon attachment packaged separately from the fender, maximizing installation accuracy by allowing the installer to mount them in the exact location required. Each stationary mount is attached using a set of four bolts, nuts and washers for a snug and secure fit. The bottom portion of this two-piece support fits within the molded ribs on the underside of the fender and acts like a safeguard to prevent the bolts pulling through the fender. The top mounted piece accepts the tube that attaches to the frame rail.

FR Series

## SlideTrax Mount Supports

SlideTrax Mount Supports provide a faster, drill-free installation – up to 10 times faster than traditional mounts! The high impact composite clamps adjust along a notched channel on both sides of the fender. Each provides 7" of adjustability for simple, mistake-proof alignment. Simply slide the clamp into the desired mount location within the channel and lock it in place with a firm push.

SlideTrax™ SRX Series

SlideTrax™ FRX Series

## Spray Master Poly Fenders

### ORDER DETAILS

- Each Bulk Set includes two fenders, support kits, and necessary support-to-fender and support-to-bracket stainless steel mounting hardware
- Mounting hardware includes stainless steel nuts, bolts, washers, and allen head set screws
- Standard colors include: Black, Silver/Gray, White, Red
- NS - Non-standard colors require a minimum order quantity: Yellow, Orange, Brown, Green, Navy Blue, Medium Blue
- Custom colors are available upon request. Minimum order quantity and one time set-up fee may be required
- Support packaged sets not assembled to fenders
- See page 3 for Tire Compatibility Chart

### PLEASE NOTE:

- Flap weights are NOT recommended and may void the warranty
- Painting Spray Master poly fenders is NOT recommended and may void the warranty. If painting is desired, a Flex Agent MUST be added to the paint.

FULL ROUND, SINGLE RADIUS OR DOUBLE RADIUS

### PERFORMANCE AND STYLING WITH TIMELESS APPEAL

Unquestionably, the top priorities in the trucking industry are performance and safety, and for over 50 years, Fleet Engineers has met those priorities with the most reliable truck components on the market. But, in an industry grounded in tradition and pride of ownership, customers are also on the lookout for options that differentiate them from competitors. Fleet Engineers helps truck owners and operators establish a signature style, offering unique designs and multiple specification options to reflect customers' individual preferences.

For customers who appreciate traditional design, the Spray Master Classic fender line offers the time-honored styling and enduring appeal of metal. The fenders feature roll-formed edges for added rigidity and radius ends to reduce cracking.

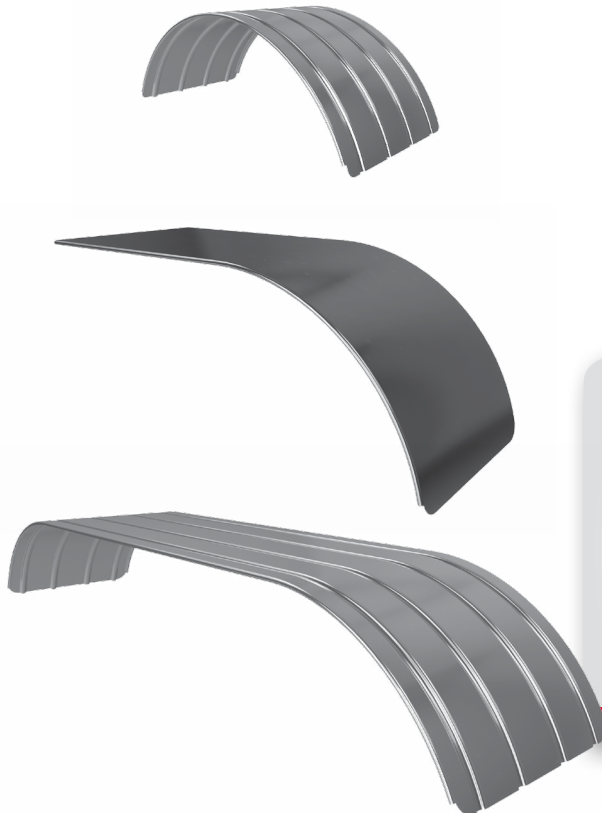

CLASSIC METAL FENDERS

### MULTIPLE METALS AND FINISH OPTIONS

Four standard metal/finishes available. Not all fenders lengths apply. Contact your Fleet Engineers representative for details.

Galvanized 18 Gauge Steel    Black Primed 18 Gauge Steel    16 Gauge Aluminum    Stainless 18 Gauge Steel

# QuickPicks FENDER MOUNTING HARDWARE

Choosing the right fenders for your application can take some serious thought, but Fleet Engineers makes it both simple, and comprehensive. Every Fleet Engineers fender is available with a complete set of mounting hardware, we call them "Quick Picks." With Quick Picks, you can simply select Economy, Standard, or Premium and get complete kits with every washer, nut, bolt and bar delivered to fit your fender, your truck.

## Economy QuickPicks

Economy Quick Pick packages are fully warranted, and fully functional. They do the job, and are our lowest price option.

## Standard QuickPicks

Standard Quick Pick packages are custom designed for every fender, and they have been fleet tested in hundreds of field applications.

## Premium QuickPicks

Premium Quick Pick packages offer premium distinctions – like stainless steel, additional offsets or greater adjustability.

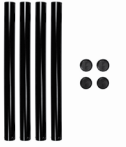

FENDER MOUNTING HARDWARE

### QUICK PICKS FOR QUARTER FENDERS

	part no.	weight (lbs.)	package	pkg qty	description
	<b>STANDARD</b> <b>031-00234</b>	5.00	bulk set	1	Side Mount Sockets in RoadKote Finish (2 of 032-00194)
	<b>PREMIUM</b> <b>031-00235</b>	4.00	bulk set	1	Post Mount Sockets in RoadKote Finish (2 of 032-00199)

Quarter Fender Individual Mount Replacements

Cross Mount Tube, 50"

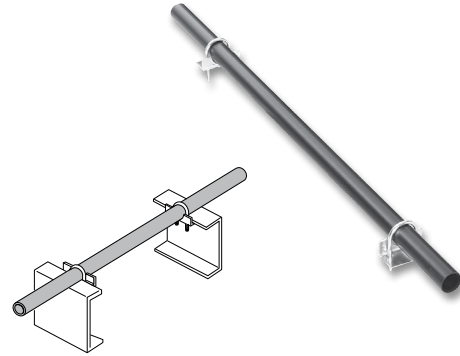

APPLICATION

- For heavy-duty, over-the-frame mounting for quarter fenders

FEATURES

- Steel construction
- Black primer finish
- 50.00" long for added strength and durability

ORDER DETAILS

SPECIFICATIONS

part no.	weight (lbs.)	description	finish	package	pkg qty

INDIVIDUAL REPLACEMENT FENDER MOUNTS

SPRAY MASTER CLASSIC Fender Individual Mount Replacements

Fender Mount Locations Application Guide

NOTE: This application guide is intended to be a general guide to help the installer. Because of the large number of possible mounting configurations, the installer is responsible for the ultimate installation design. Any modifications to the product are at the discretion, responsibility, and risk of the installer. These kits may not fit all truck models or types of suspensions. Check the truck manufacturer for suspension movement specifications.

INDIVIDUAL REPLACEMENT FENDER MOUNTS

X-FLEX Multi-Mount - with Vibrowedge Isolator

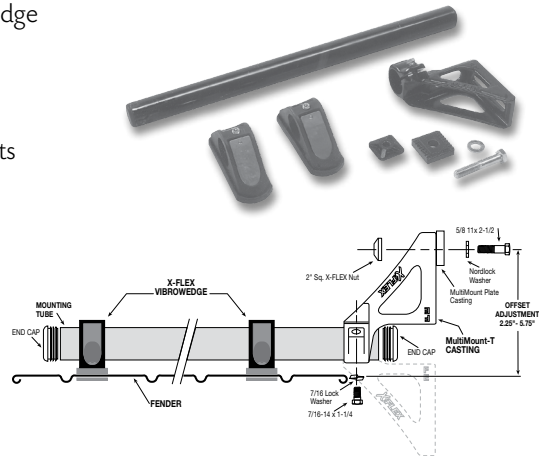

APPLICATION

- Designed for mounting on top of the fender using the X-FLEX Vibrowedge
- Will work on most fenders from a variety of manufacturers

FEATURES

- Minimizes "spider web" cracking where the fender is attached to mounts
- Eliminates direct metal-to-metal contact and creates a "free floating" zone of vibration isolation
- Allows for adjustable offset range of 2.25" to 5.75" from centerline of mounting tube to centerline of chassis mounting bolt
- Uses "Nordlock" anti-vibration washers in 5/8" applications

ORDER DETAILS

- Packaged set consists of two tubes, four end caps, four mount retainers, four Vibrowedge isolators, four backing straps, eight stainless steel covers, stainless steel fender-to-bracket hardware, two RoadKote fender side castings, two frame plates, casting to bracket, and casting to chassis hardware

INDIVIDUAL REPLACEMENT FENDER MOUNTS

SPRAY MASTER CLASSIC Fender Individual Mount Replacements

X-FLEX Multi-Mount with Iso-Blox

APPLICATION

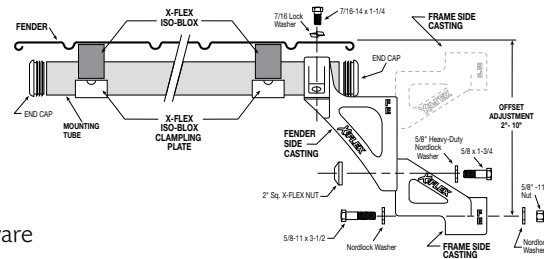

- Designed for mounting under the fender in a center position using the X-FLEX Iso-Blox (part # 031-01208) included
- Will work on most fenders from a variety of manufacturers

FEATURES

- Allows for adjustable offset range of 0" to 8.00" from centerline of mounting tube to centerline of chassis mounting bolt.
- Eliminates direct metal-to-metal contact
- Uses "Nordlock" anti-vibration washers in 5/8" applications

ORDER DETAILS

- Packaged set consists of two RoadKote fender-side castings and two frame-side castings, castings-to-chassis hardware, two RoadKote finish tubes, four end caps, four Iso-Blox mounts, four metal caps, fender to Iso-Blox hardware, and mounting bracket to Iso-Blox hardware

INDIVIDUAL REPLACEMENT FENDER MOUNTS

## SPRAY MASTER POLY Fender Individual Mount Replacements

### PivotBar and Post Mount Set for Spray Master Poly Fenders

#### APPLICATION

- For use with Spray Master FR, SR and DR and FRX fender styles
- 22.5" / 24.5" Wheel Size
- Use length 30.25" for Spray Master FR, SR and DR - no SlideTrax
- Use length 32.50" for Spray Master FRX-22 - with SlideTrax

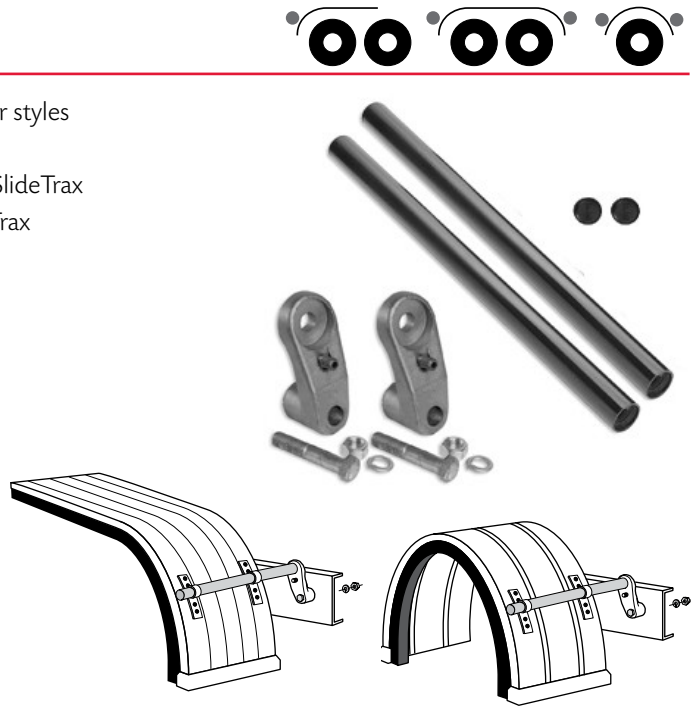

**NOTE:** Not compatible with FRX-19 Fender

#### FEATURES

- Stainless steel or RoadKote tube construction

#### ORDER DETAILS

- Packaged sets include two stainless steel or RoadKote end mount tubes, two PivotBar adapters, two jamming screws, bracket-to-adapter hardware, adapter-to-chassis hardware and two end caps

#### SPECIFICATIONS

part no.	weight (lbs.)	description	recommended fender	construction	package	pkg qty
