LED snow plow light kits

TRUCK-LITE LED

HALOGEN

goo.gl/CF5y1S | Watch us test this product.

- Provides a robust, LED, solid-state solution to plowing applications in need of durable lighting that can withstand shock and vibration.
- Replacing headlamps and turn signal lamps blocked by the plow assembly.
- Heated kit utilizes the Truck-Lite 27275C 7" round LED headlamp.
- Non-heated kit utilizes the Truck-Lite 27270C 7" round LED headlamp.
- Popular for utility/municipality use and more, as LED design draws less current, allowing more power for other vehicle requirements.
- DOT-compliant LED headlamp provides a brighter, crisper and whiter light output, dramatically improving light projection distance and increasing visibility.
- Advanced white LED technology reduces concerns with EMI and offers substantially longer life than comparable incandescent lamps.
- Complex reflector design spreads light in a clean, more uniform pattern.
- Pedestal lamp (Front/Park/Turn) features a unique LED diode array with a full pattern appearance.
- Lamps are hardwired, with fully encapsulated electronics to protect from damage caused by corrosive elements and moisture.
- Impact-resistant polycarbonate lenses protects against damage caused by debris and other hazards.
- Headlamp component is backed with Truck-Lite's 3-Year Limited Warranty, Front/Park/Turn lamp component is covered by Truck-Lite's 2-Year Limited Warranty and bracketry is covered by Truck-Lite's standard 1-Year Limited Warranty.

80990 | Heated Lens, LED, 7 in. Round, Snow Plow Light, 12-24V, Kit

Light Source:

HEADLAMP

- 2 LED Arrays
- Designed, w/ heater off, at: 12.8v, 1.4a (low beam), 2.7a (high beam); 25.6v, 0.7a (low beam), 2.5a (high beam)
- Designed, w/ heater on, at: 12.8v, 3.1a (low beam), 4.5a (high beam); 25.6v, 1.6a (low beam), 2.6a (high beam)

FRONT/PARK/TURN LAMP

- 21 Light Emitting Diodes
- Designed at 12.8v
- Major Function: .625a, Minor Function: .046a

Kit Components:

- 1x 80988 Right Hand Assembly
- 1x 80989 Left Hand Assembly
- 1x 80898 Snow Plow Harness

D.O.T.

World's first heated-lens LED headlight that constantly heats under 50°F/10°C.

80880 | LED, 7 in. Round, Snow Plow Light, 12-24V, Kit

Light Source:

HEADLAMP

- 2 LED Arrays
- Multi-volt design, operational from 9 to 33 volts
- At 12.8v operation, high beam function draws 3.60a Low beam function draws 1.80a

FRONT/PARK/TURN LAMP

- 21 Light Emitting Diodes
- Designed at 12.8v
- Major Function: .625a, Minor Function: .046a

Kit Components:

- 1x 80878 Right Hand Assembly
- 1x 80879 Left Hand Assembly
- 1x 80898 Snow Plow Harness

D.O.T.

Coil-embedded lens with temperature sensor

- lens starts heating under 50°F
- removes 1mm thick ice in less than 10 minutes.

Military-grade bracket

- bracket breaks away instead of the light snapping off

Complex Reflector

LED diode array with full pattern

7" Round Heated Snow Plow Light

- A unique heat pattern is designed to prevent ice, slush and snow buildup on the lens.
- **Military-grade**, die-cast aluminum housing and non-yellowing, polycarbonate heated lens offer optimum protection against damage from impact, roadside debris and other hazards.

- Exceeds FMVSS-108 and CMVSS-108 requirements for low beam and high beam performance.
- Heated kit utilizes the Truck-Lite 27455C 5"x7" rectangular LED headlamp.
- Non-heated kit utilizes the Truck-Lite 27450C 5"x7" rectangular LED headlamp.
- Excellent option for light, medium and heavy-duty trucks and off-road vehicles.
- Metalized reflector optics provide a lighting experience that is smooth and clean across the driving surface.
- Provides a brighter, crisper and whiter light output, closer to the color temperature of daylight, dramatically improving light projection distance and overall visibility.
- Durability and dependability of LED lighting provides a solid-state, bulb-free headlamp design that is impervious to damage from shock and vibration.
- Military grade, die-cast aluminum housing and non-yellowing, polycarbonate lens offer optimum protection against damage from impact, roadside debris and other hazards.
- Electronics are sealed in epoxy to resist damage caused by corrosion or moisture.
- Advanced circuitry protects against voltage spikes up to 600v.
- Drop-in replacement for #6014, 6015, 6016, H6024 and Par 56 headlamp designs.
- Uses standard, H4, 3-blade wiring connector.
- Equipped with Truck-Lite's 3-Year Limited Warranty.

80985

Heated Lens, LED, 5 x 7 in. Rectangular, Snow Plow Light, 12-24V, Kit

Light Source:
HEADLAMP

- 2 LED Arrays
- Designed, w/ heater off, at: 12.8v, 1.4a (low beam), 2.7a (high beam); 25.6v, 0.7a (low beam), 2.5a (high beam)
- Designed, w/ heater on, at: 12.8v, 3.0a (low beam), 4.1a (high beam); 25.6v, 2.0a (low beam), 2.4a (high beam)

FRONT/PARK/TURN LAMP

- 21 Light Emitting Diodes
- Designed at 12.8v
- Major Function: .625a, Minor Function: .046a

Kit Components:

- 1x 80984 Right Hand Assembly
- 1x 80983 Left Hand Assembly
- 1x 80898 Snow Plow Harness

80875

LED, 5 x 7 in. Rectangular, Snow Plow Light, 12-24V, Kit

Light Source:
HEADLAMP

- 2 LED Arrays
- Multi-volt design, operational from 9 to 33 volts
- At 12.8v operation, high beam function draws 3.60a. Low beam function draws 1.80a

FRONT/PARK/TURN LAMP

- 21 Light Emitting Diodes
- Designed at 12.8v
- Major Function: .625a, Minor Function: .046a

Kit Components:

- 1x 80874 Right Hand Assembly
- 1x 80873 Left Hand Assembly
- 1x 80898 Snow Plow Harness
