

# PrecisionTrak™

## Recessed or Flush Mount Wood Roll-Up Doors

From start to finish, the exacting standards of all PrecisionTrak wood roll-up doors are what set them apart from the competition. These economical roll-up doors are available in both **flush hinge with 2" rollers** and **recessed hinge with 1" rollers** and are manufactured with 3/4", 7-ply, transportation-grade, hardwood faced plywood.

RECESSED 1" ROLLER

**PrecisionTrak™**  
FLUSH MOUNT 2" ROLLER

PRECISIONTRAK ROLL-UP DOORS

### FEATURES

- Available in universal trim-to-fit or custom sizes fully assembled ready to install
- Standard finishes: white primed ready-to-paint and pre-painted white with durable clear UV finish. Custom colors are available with minimum order requirements
- Routed interlocking tongue and groove panels provide precise alignment and moisture barrier
- Aluminum head seal retainer with removable rubber seal

#### RECESSED 1" Roller Wood Roll-Up Door

- Steel rollers for use with 1" track
- Zinc-plated spring assisted steel lock eliminates door bounce
- Galvanized bottom seal retainer with 2 point contact rubber seal
- Zinc-plated hinges are recessed, reducing freight hang-up
- Corrosion resistant stainless steel 7 x 19 cables, 1/4 nylon eye
- Zinc-plated heavy-duty lift handle, and 18" pull strap assembly

#### FLUSH MOUNT 2" Roller Wood Roll-up Door

- Nylon rollers for use with 2" track
- RoadKote spring assisted steel lock eliminates door bounce
- Aluminum bottom seal retainer with flexible PVC 3 point seal
- End hinges with removable covers to allow easy roller replacement
- Corrosion resistant stainless steel 7 x 19 cables, 5/16 aluminum eye
- RoadKote heavy-duty lift handle, and 18" pull strap assembly

PRECISIONTRAK ROLL-UP DOORS

# ToughTrak™

## Steel Clad Roll-Up Door

Every ToughTrak door is engineered and manufactured to stand up to impact without deformation. Panels are abrasion resistant with an excellent performance-to-weight ratio. These doors are the most durable you'll find on the marketplace today and the galvanized steel skins are finished with automotive coatings that are easily cleaned. They stand up against salted winter roads and the hottest summer days. Even the hardware is tough – an extra row of reinforced, dual-coated hinges are the backbone of every ToughTrak door.

TOUGHTRAK ROLL-UP DOORS

### FEATURES

- 1/2" thick (13mm) composite panel consisting of a high density polyethylene (HDPE) core between two galvanized steel skins
- Baked on white enamel finish
- RoadKote/powdercoat spring assisted steel lock eliminates door bounce
- One-piece extruded rubber head seal
- Tongue and groove joints
- Stainless steel rivets/RoadKote/powder coated components
- Nylon rollers for use with 2" track
- One-piece flexible PVC bottom seal
- End hinges have removable covers to allow easy roller replacement
- Designed for use with dual spring operator

**ToughTrak Steel Clad Roll-Up Door**

TOUGHTRAK ROLL-UP DOORS

# PolyTrak™

## Polypropylene Roll-Up Door

PolyTrak roll-up doors are our lightest and most moisture resistant option, ideal for units that must be cleaned on a regular basis, or wherever reducing weight is important. Panels do not absorb moisture keeping weight consistent throughout the life of the door, requiring fewer counterbalance adjustments and overall maintenance.

POLYTRAK ROLL-UP DOORS

### FEATURES

- Highly engineered panels are ribbed on the inside of the door for strength
- Galvanized steel channels reinforce every PolyTrak panel for stability
- Interchangeable with 2" rollers, flush mount hinges, and other industry standard components
- Polymer panels do not corrode, absorb moisture, or break down
- Light-weight panels
- Rivets are not exposed on the outside center of the door, leaving a smooth surface eliminating unsightly rust streaks, increasing brand image
- Panels are UV stabilized for a consistent color throughout the life of the door
- Weight stays consistent throughout the life of the door
