Unsupported Households Gloves

Unsupported rubber gloves are an affordable and often disposable solution for tasks requiring chemical and moderate abrasion resistance. Unsupported gloves are created by simply dipping preformed molds into dipping compounds without supporting liners.

LDGO-

Tangerine 12" flock lined 60gm latex unsupported glove with a rolled cuff.

Recommended Usage

Features

- 12" length provides additional protection
- Great chemical resistance
- Rolled cuff to reduce drip
- Textured palm and finger tips
