33 SERIES

### 33<sup>®</sup> SERIES, LED, 1 DIODE, 0.75", GROMMET MOUNT

- Excellent choice for interior applications such as truck cab, walkways, glove boxes, step lights, puddle lights and more
- Creates additional options for improving custom look and theme of vehicle exteriors, mounted on separate switch
- Hardwired lamp design easily retrofitted
- Low profile reduces damage from impact
- LEDs draw less current, allowing more power for other vehicle requirements
- Reduces lighting costs due to physical damage and heat entrapment
- Electronics completely sealed in epoxy to resist corrosion and moisture
- Designed for auxiliary lamp use only
- US Patent #6612728
- Not recommended for marker/clearance purposes

## 36 SERIES, LED, 3 DIODE, 1" X 2", ADHESIVE MOUNT

- Provides robust LED white lighting solution that does not require mounting brackets or installation screws
- Light adheres directly to mounting surface with heavy-duty adhesive backing, with an easy-to-install, peel-off liner
- OmniVolt design makes the 36 Series auxiliary light perfect for any type of vehicle system
- Small profile makes it ideal for interior, tool box, storage, under cabinet, and other small spaces
- Perfect for rock lights in off-road application
- Electronics are completely sealed in epoxy to resist damage caused by moisture, corrosion, shock and vibration

## SUPER 44<sup>®</sup>, LED, 6 DIODE, 4", GROMMET MOUNT

- Low-profile lamp, approximately 1" deep for where space is at a premium
- Features robust and cost-effective design
- Virtually impervious to shock and vibration
- Epoxy-encapsulated electronics protect the lamp from damage caused by chemicals and moisture
- Designed to operate in extremely cold temperatures
- Broad light pattern with approximately 360 lumens of light output
- U.S. Registered TM #3483147

## SUPER 44<sup>®</sup>, LED, 6 DIODE, 4", FLANGE MOUNT

- Surface-mount design eliminates the need for large hole cutouts in trailer ceiling
- White housing design blends well with refrigerated trailer interiors
- Available with integrated on/off switch as well as externally controlled version
- Lens design recesses lens into housing to prevent damage from impact
- Not affected by cold temperatures, providing flicker-free lighting with a faster start-up time
- Ideal for refrigerated vehicles or those operating in cold weather
- Solid-state LED design is impervious to damage from shock and vibration
- Retrofit or replacement is quick and easy
- LED are fully encapsulated in epoxy to prevent damage caused by moisture and corrosives
- Recommend 3 #10 machine screws for mounting, with torque of 15-18 in-lbs

## 80 SERIES, LED, 6 DIODE, 2" x 5", 4 SCREW BRACKET MOUNT

- U.S. Patent #7244058
- Die-cast aluminum housing
- White powder-coat finish
- Polycarbonate lens
- 10 White, 1W LEDs
- Lower profile than competitor lamps
- Nearly flush-mount, only .1" protrusion
- Not affected by cold temperatures
- LEDs provide whiter, brighter light
- Retrofit or replacement is quick and easy
- Flicker-free lighting in all temperatures

## 80 SERIES, LED, 10 DIODE, 3" x 16", 8 SCREW BRACKET MOUNT

- Robust LED dome lamp w/motion sensor located in center of lamp to power lamp on
- Motion sensor determined by changes in heat and stays on through 5 minutes of inactivity
- Recognizes movement up to 10 feet away from lamp surface
- Nearly flush-mount design, with only .1 inch protrusion to allow more room in vehicle body
- Not affected by cold temperatures, providing flicker-free lighting with a faster start-up time
- Ideal for refrigerated vehicles or those operating in cold weather
- LEDs provide whiter, brighter light rated at 1,000 lumens, providing clearer, improved visibility
- Solid-state LED design is impervious to damage from shock and vibration
- Retrofit or replacement is quick and easy, with a standard 16x4 cut-out necessary for installation
- LEDs are fully encapsulated in epoxy to prevent damage caused by moisture and corrosives
- Hardwired design

## 84 SERIES, LED, 12 DIODE, 2" x 48", 4 SCREW BRACKET MOUNT

- LED light source provides more even truck cargo light
- Aluminum housing won't rust
- Less susceptible to shock and vibration
- Reduces shadowed areas and increases visibility
- Can be mounted almost anywhere
- LEDs draw less current, creating less heat
- Designed for interior use only

## SIGNAL-STAT, LED, 4 DIODE, 3" x 10", 2 SCREW BRACKET MOUNT

- Ideal for flood, cargo, step, locker and overhead lighting
- Can be fitted in semi-trailer, trailer, box van, mini-bus/coach, emergency services, utilities, recovery and load-handling vehicles
- Utilizes an extremely reliable slimline design and combines both dual-voltage and dual-polarity functions
- Instant switch on with easy surface mount and offset optical design making it easy to position in any orientation to direct light to the desired area
- Low-profile, waterproof to IP67 and reliable to a temperature of minus 40° C
- ECE-approved LED interior lamp to ECE 95/54, EEC 2000/2, ECE Reg. 10
