

## SLOTTED SPRING PINS GOUPILLES RESSORT FENDUE

**300**  
Series

These high-carbon spring steel pins replace dowel pins, straight pins, taper and groove pins. They can be driven into an ordinary drilled hole and will hold position due to their spring action - no peening or riveting. Re-usable - easy to insert and remove. Shock resistant, vibration proof - stronger than solid pins. Spring pins are oversize, they contract when inserted in the nominal size drill hole.
